

In particular, applicants emphasize that the rejection fails to establish any motivation for combining with an AII antagonist a compound having the activity of lowering postprandial hyperglycemia in diabetes mellitus (see claim 33).

Accordingly, withdrawal of the rejection under 35 U.S.C. 103 is requested.

In accordance with the foregoing, favorable reconsideration and allowance of the application are requested. In the event that any issues remain, the Examiner is invited to telephone the undersigned with any proposal to expedite prosecution.

Respectfully submitted,
